

Wednesday League

Who will own court #1?

League Tennis is a great way to hone your competitive skills, on-court strategies and adaptability to varied styles of play. The league rewards players that win. Play will be standard, doubles format, with partners selected at random for week 1. After the first week's scores, court assignments will be determined by the total number of games won by each individual up to that week. The 4 players with the most games won will play on court one, the next four on court two, etc. On each court, players 1 and 4 will play players 2 and 3. This allows level of play to determine partners and you control your destiny by performance. Can you make it to court 1?

Get in the game and do it!

Joe Clark will administer the league, collect scores and issue weekly schedules. You can contact him at eptcjoe@yahoo.com
